

## Christian Davis Successfully Obtains Termination of Benefits in Defending National Automotive Distributor

Successfully obtained termination of benefits and defended against a claim for reinstatement of indemnity benefits and a more expansive injury description when representing a national automotive distributor. As a result of the decision, the defendant saved nearly \$50,000 and is not responsible for ongoing medical and indemnity benefits. The Workers' Compensation Judge rejected the employee's testimony as not credible and accepted the IME doctor's opinions on the issue of recovery and extent of the work injury.
