

At Weber Gallagher, we represent and advise our clients on virtually all matters and/or disputes which commonly arise in the field of insurance law. Our clients are comprised of insurance carriers, insured individuals, businesses, self-insureds, agents and brokers. The representations Weber Gallagher provides to our clients involve both litigated and non-litigated matters. As counsel and advisors to our clients, our goal is clear - to provide an on-going and comprehensive analysis of the issues faced so they can arrive at an informed business decision regarding how to proceed during every step of the engagement.

Weber Gallagher has decades of experience handling complex insurance matters for our international and domestic clients. Our attorneys have and/or continue to hold positions including national coordinating counsel on complex business and coverage issues, while others were claims and legal executives for insurance carriers and reinsurers before joining the firm. At Weber Gallagher, we strive to resolve matters wherever possible through negotiation, however, when necessary we are well prepared to mediate, arbitrate and/or litigate to protect our clients' interests.
