

Medicare Set-Aside

Clients engage us for complex cases as well as matters involving a single injury, single employer and minimal treatment. We take a case from inception to settlement. That eliminates the need for a third-party vendor and allows for a timely, cost-efficient resolution. To ensure an accurate injury description, we do more than review medical records, which often contain injuries beyond those accepted for coverage. We incorporate legal analysis into the preparation of submission to the Centers for Medicare & Medicaid Services (CMS). The firm takes a similar approach in communicating with the Medicare Secondary Payer Recovery Contractor (MSPRC) about conditional payment liens.
