January 17: **Managing Opioid Abuse, New OSHA Rules and the Blocking of Post-Accident Drug Testing** Presented by [Paul Fires](#) and [Geoffrey Lockyer](#)

Our Pennsylvania attorneys will address how to effectively use the workers' compensation system to control opioid abuse among injured workers and physicians who overprescribe those drugs, and how to challenge employees who are reselling the medication paid for by employers and carriers. Our attorneys will also review the latest OSHA rules blocking post-accident drug testing and a current lawsuit in Texas challenging that rule.

Registration is required for all webinars. Once you RSVP to a webinar, you will receive a link to access the live video feed.
